A large granite block was being put on a flat car at the Littlejohn & Milne stone shed yesterday when it got away from the workmen and fell off the car and against the building, doing some damages to the building and injuring the stone slightly. No one was injured.

### A Fifteen Years' Secret.

The old watchmaker of a small town in the West of England recently retired, and the contract for keeping the church and town hall clocks in order was given to his successor. Unfortunately, from the start the new man experienced a difficulty in getting the clocks to strike at the same time. At last the District Council requested an interview with the watchmaker.

"You are not so successful with the clocks as your predecessor," he was told. "It is very misleading to have one clock striking three or four minutes after the other. Why, before you took them in hand we could hardly tell the two were striking. Surely, you are as competent as Mr. H—"

"Every workman has his own methods, gentlemen," replied the watchmaker, "and mine ain't the same as H—s."

"I'm decidedly of the opinion that it would be for the general good if they were," remarked one of the councillors. "Very well, sir; in the future they shall be," came the reply. "I happened to write to Mr. H— last week about the trouble I had with the clocks, and—'but, perhaps,' he added, as he produced a letter and handed it to the chairman, 'you'd like to see what he said.'"

"Dear Sir" (ran the letter—"About those clocks. When you get to know what a cantankerous lot of busybodies the Council consists of you'll do the same as I did for fifteen years—forget to wind up the striker in the town hall clock, and the silly owls won't be able to tell that both clocks ain't striking together."—Tid-Bits.

27-inch changeable Taffeta for \$5c at Abbott's.

### MARSHFIELD.

Miss Edith Smith has been very sick with tonsillitis and quincy sore throat.

A moving picture entertainment will be given at the M. E. church next Friday evening, for the benefit of the "bell fund."

Mrs. Elizabeth Paeker Dewey arrived at her father's last Wednesday afternoon, and will remain about ten days.

From the fact that R. J. Kinney has many friends in this town, musical and otherwise, they will doubtless avail themselves of the privilege of hearing Mr. Kinney sing in the entertainment given in the Congregational church at Plainfield next Friday evening, by the Corinthian quartette of Boston, in which he sings low bass.

Mrs. C. H. Clark, accompanied by her daughter, Edith, and son, Lawrence, arrived at Mrs. Mark Mears' Monday night. They were detained at home by the illness of Mrs. Clark, which deferred their visit for a few days.

he services of Constable Pike were required to drive a couple of junk dealers off the ruins of Mrs. Bancroft's house. They were possessing themselves of old iron, copper, etc., regardless of remonstrances from workmen nearby.

Georgia, the little son of P. M. Davis, has been quite sick for a few days, but is reported better.

James Mitchell, the blacksmith, has been out of commission for three weeks. He "dropped a stitch" and rheumatism set in.

Mrs. Lucinda Northrop is no better of her catarrhal bronchitis, but everything is being done to relieve her.

Mrs. Abbie Ober, who has been working for C. H. Northrop, returned to her home in Waterbury last Saturday.

C. H. Northrop and George Blakely were in Montpelier on business Tuesday.

Mr. and Mrs. D. K. Lucas made a business trip to Barre and Montpelier Tuesday.

A sample of true regard for the dear departed may be seen in the quiet manner of Ira Ormsbee, who, though unpretentious, has the best kept cemetery lot of any in town. The place where the father and mother of Mr. Ormsbee rest is kept trimmed and mowed and only a short time since he has caused to be placed upon the lot a beautiful monument. It would be well for others to profit by this example.

Moses Lamberton has erected a bronze monument in the Eaton cemetery to the memory of his wife, Laura Davis, who was deceased nearly two years ago. This is said to be the newest monument in town, except one, that of the late Dr. Towne.

## REMEDY FOR HAY FEVER

After Trying Other Treatments, Hyomei Was Used With Perfect Success.

Before the discovery of Hyomei the only advice a physician could give his hay fever patients, was to go away from home, but now anyone who is subject to this disease can, if Hyomei is used, stay at home without fear of the annual attack of sneezing, watery eyes, and other discomforts.

J. F. Forbes a well known Western railroad man, whose home is at McCook, Nebraska, writes: "I have never had any relief from any remedy for hay fever, even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit, so that the air taken into the throat and lungs is like that of the White Mountains or other health resorts, where hay fever is unknown.

The fact that Rickert & Wells agree to refund the money to any hay fever sufferer who uses Hyomei without success should inspire confidence in its power to effect a cure. A complete outfit costs only \$1.00 and extra bottles but 50 cents.

## Is Your Kitchen Plumbing Modern?

Have you ever considered the fact that all your food is prepared in the kitchen and that the utensils in which it is prepared depend on the sanitary equipment of the kitchen for their cleanliness?

This fact alone should warrant the installation of a thoroughly sanitary kitchen sink.

Let us examine the plumbing in your kitchen and if it is defective, tell you the cost of putting in a "Standard" Porcelain Enameled Sink—the most sanitary fixture made.

### The One Requisite.

Having diligently perused all the catalogues of 794 manufacturers, the young man proudly announced his intention in life.

"I will become a writer of short stories," he said: "the introduction of a 40-horse power machine, together with the easy mention of its various devices, will insure me an overwhelming success. As for the story itself, that is a matter of small import."

Taking his pen in hand he proceeded to reap the harvest.—Puck.

Baron Kaneko says that the invention of the alphabet of 47 letters by Maie in 735 A. D. is always considered to have given birth to Japanese literature and is recognized as the beginning of Japanese civilization. The Japanese language is phonetic, while the Chinese is hieroglyphic. The alphabet is called "shin kana."

Lady Diana de Vere Huddleston, who died in London recently, left will bequeathing \$90,000 to her servants and directing that her ashes after cremation should be placed in the oak shrine awaiting them at Coutt's bank and buried with those of her husband, which she had carried with her wherever she went for 15 years.

### WENT INTO WOODS TO DIE.

Suncook, N. H. Man Was Discouraged and Ended Life.

Suncook, N. H., Aug. 9.—Allen P. Foss, aged 60 years, for fifteen years master mechanic of the cotton mills here, committed suicide yesterday afternoon by shooting himself, with a shot gun, behind the right ear.

Mr. Foss started at 2 o'clock from the home of his daughter, Mrs. Harry Chase, presumably on a hunting trip. He told Mrs. Chase that if he did not return in two hours, she would know he had shot something too large to carry home. Mr. Foss left some money and his watch with his daughter, and then went to the hotel and paid his board bill.

Between 4 and 5 o'clock shots were heard in the woods, but nothing was thought of this, as it was supposed to be someone hunting.

At 6 o'clock when the man failed to put in an appearance at the home of his daughter, it was feared that he had been lost, and a searching party was formed. The search continued until about 9:30 o'clock when his body was found.

Mr. Foss had dug a hole in the ground in which to place the butt of the gun, and placing the muzzle behind his right ear, pulled the trigger.
